

Wasp Botanical Antimicrobial Clear Mold Resistant Sealant

Ready-to-use, Wasp™ surface anti-mold and antimicrobial sealer made in the US, 25(b) safe ingredients recognized by EPA's (Environmental Protection Agency) federal insecticide, fungicide and rodenticide Act (FIFRA) under minimum risk exemption regulation in 40 CFR 152.25(f). (GRAS) **Generally recognized as safe**. EPA's safer choice chemicals

Wasp™ delivers long-term, interior and exterior anti-mold surface protection and applied to remediated chase. Easy to apply with brush, roller, spray, or paint sprayer. Quickly penetrates and adheres to porous and non-porous surfaces and leaves a durable, long-lasting barrier that will not blister, peel, crack, or chip, while helping to restore the integrity of water damaged materials.

Exterior

- Long lasting anti-mold sealant for exterior concrete, brick, stucco, roofing tiles and masonry materials. (1-year limited warrantee)

Interior

- Long lasting anti-mold sealant for interior mold remediation crawl spaces and open chases. (10-year limited warrantee) against wood damaging mold and staining.
- Long lasting anti-mold treatment for ducts. (3-year limited warrantee)
- Penetrating into porous surfaces
- May be applied to surfaces up to 33% (WMC) wood moisture content-breathable
- Patented technology safe for humans, animals, fish and the environment

Meets ASTM Standards D-3273 & D-5590 for mold growth resistance and is Air Quality Management District and VOC compliant.

Color-Clear or White tint

Directions of Use: One coat with airless – 800 sf per gallon, may be brushed on exterior concrete.
